Automatic can testers

PRE L LEAK-TESTERS

Food – Beverage – General Line

TYPE OF TEST: VACUUM

Product range	PRE 1024 L	PRE 36 L	PRE 48 L	PRE 60 L	PRE 72 L	PRE 2048 L
can diameter (mm)	52 - 100	52 - 99	52 - 74	52 - 84	52 - 74	52 - 99
can height (mm)	40 - 140 (180)	40 - 140 (180)	40 - 140 (180)	36 - 140 (180)	36 - 120	40 - 120 (180)
max output (cpm)	300	600	750	960	1200	750
number of heads	24	36	48	60	72	48
can conveyor	lateral	frontal/lateral	frontal/lateral	lateral	lateral	lateral

level of work	<i>mm 1000 ±40</i>
sense of rotation	<i>counter clockwise (on request it can be opposite)</i>
height changeover	<i>electrical device with display; required time 1 minute</i>

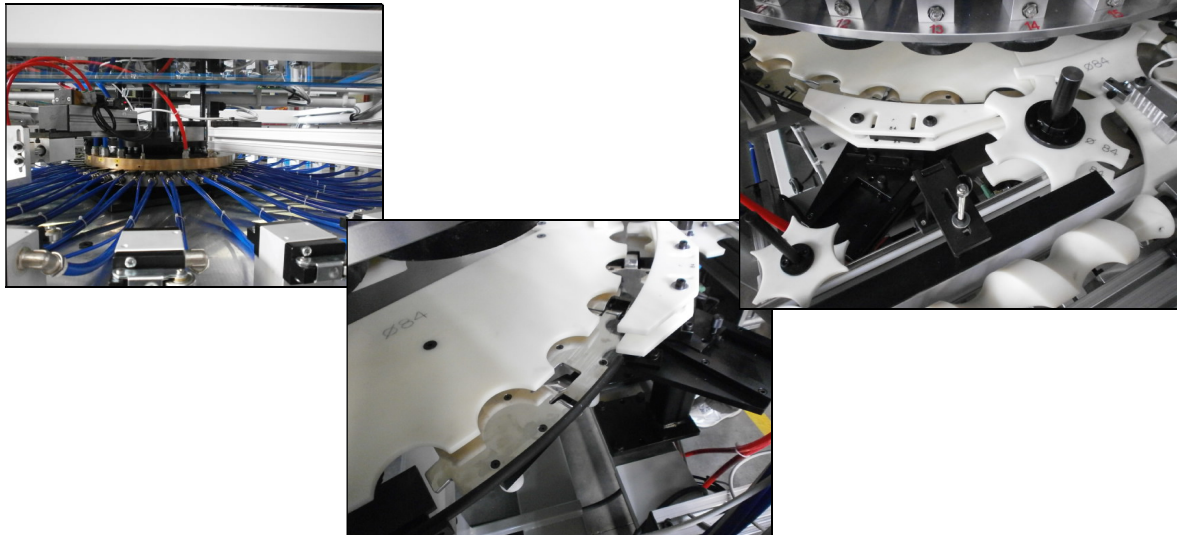

MAIN FEATURES

These machines are realised in several versions able to satisfy the major part of needs of the Canmakers to test all types of open top cans, round or shaped, 2 or 3 pieces, tin plate, aluminium or composite.

These machines have been chosen by the most important producers all over the world.

The PRE machines proved during many years of use on the various conditions a high degree of efficiency, due to the accurate but simple realization in order to facilitate the self-learning and to make the maintenance and the intervention of the operators easier. The programming is not required and the installation on the existing lines is facilitated by the flexibility of their components and the small space that they require.

Special contrivances have been realized to make the operations of height changeover quick and easy.
